

Hi folks,

Here's your South Shores Quarterly Crime Summary for the 2nd quarter, April 1 through June 30 2025. There's a possibility these stats may be an incomplete list of actual crime activity.

Here's what's going on:

- Our main source of crime data for 10 years, a national service called COMPSTAT, has been temporarily shut down for system upgrades.
- **Simultaneously**, our trusty backup source, LAPD's records management and reporting system has **also** temporarily shut down while it transitions into a new system called NIBERS. The timeline for resumption of normal communications is unknown right now, but we will keep you posted.

Here's the second quarter crime info we've been able to extract so far, thanks to our Senior Lead Officer Melody Shortle:

2025 2nd Quarter CyberWatch Crime Summary for South Shores

Folks, given all the disruptions within the infrastructures of our nation's commercial and political landscapes, CyberWatch has never played a more important role in our community's personal safety.

Let's take a deep breath...continue observing and reporting...looking out for each other...and CyberWatch will continue partnering between South Shores and the LAPD to keep our little corner of paradise safe and secure.

Thanks again, Officer Shortle!!

Be well...Bob
