F. San Pedro *“reentry program”*. According to Councilman’s office, there is nothing that can be done to forestall this state funded program. Why didn’t the Councilman office know of this program before the SSCA brought it to their attention? This and many other questions go unanswered. (see attached email from Drew leach)

G. I have initiated a conversation with local realtors to evaluate their assistance (financial, gardeners) in pursuit of keeping South Shores public areas; i.e. Western Ave., Cumbre & Mantis, others free of shrubs, unsightly and unkept debris.

H. NNO Tuesday August 5

Brian Ward

I. Resurrection of the Royal Palms issues.

i. Initially my suggestion of using Black Knight patrol was positive and met with enthusiasm, LAPD indicated that the lack of calls did not warrant additional assistance. Allegedly, LAPD officials feel that their presence is sufficient. As we all know from the 4<sup>th</sup> of July activities, this is a false sense of confidence. There are no patrols (reality), no enforcement, no presence. I have reengaged with the Councilman’s office, with the above. As of Friday, 07.11 number for specific Royal Palm issue was set up (310-726- 7700) I believe this is correct, waiting confirmation.

ii. Black Knight began patrolling Bogdanovich Park. Appears to be working.
